Reason for connection _____

(Unless provided by Title company we will require a copy of your deed indicating ownership of this property)

The current annual rate for 240,000 gallons per-year of water is \$1320 or \$110 per-month for 20,000 gallons a month payable in advance. Reserve connections are \$30.00 annually. Lack of payment will result in termination of service and a reconnection fee will be charged. You will also be responsible for payment of any additional gallon age used over the allotment of 240,000 gallons.

If water service is activated by the ASCSD for your use, billing for water will commence and you will be responsible for payment to the ASCSD regardless of whether or not water is used or whether or not plumbing is connected to your side of the meter.

You must maintain compliance with all applicable local governmental ordinances or regulations, and that your failure to comply, may result in the termination of water service to you.

ASCSD Water Application 5-10-22 (page 2)

Future water regulations and laws promulgated by the State of California, or uncontrollable circumstances, may result in the future, impact water allotments, permitted water.

The ASCSD is responsible for any water system leaks before the water arrives at your meter, however all leaks AFTER your box are your responsibility and any excess use of water due to leaks on your property will be billed to you.

If there is no meter or box at present on the property, it will result in additional fees to provide service.
